

CONVEYER – HEAT SHRINK OVEN CONVEYER – (SO-300)

Sai Paradise Machine Tools

Overview

Heat Shrinkable sleeve pipe bender is automatic successive shrinkable packaging device and is the latest, the discharge pipe more than electricity heating, power saving and efficient (15%), shrinkage temperature and stable motor drive speed adjustable, Can the adjusting range is extensive; original jet device, shrinkage furnace height and direction can be adjusted freely.

Features

1. Heat shrink tubing wraps snugly around wires and terminals to protect them from abrasion and keep them bundled
2. CB-DWT polyolefin tubing resists moisture and corrosion and is frequently used in electrical applications
3. The shrink oven heat shrinks tubing on harnesses up to several inches in diameter and 40 feet long

Applications

Heat Shrink Conveyor is applicable to PVC, POF, PP, such as heat shrinkable film, relative POF, more show the machine.

Technical Details

Model no	SO-300
Conveyer Speed	0 – 12m/min
Air Pressure	9.6Kw
Temperature	Upto 400°C
Weight	145 Kgs
Dimensions (L x W x H)	1630 x 650 x 1200mm
Size	1200 x 450 x (60 – 350) mm
Power	240V (50/60 Hz)
