

CUTTING & STRIPPING – (ECOSTRIP – 999)

Sai Paradise Machine Tools

Overview

The powerful Eco-Strip-999 processes round cables upto 4 mm – 50 mm outer dia. It has a powerful cutting and transport drives for higher production rates. This machine can process 4 wires at a time, hence improves productivity. This Eco strip-999 is designed in PLC based with hybrid stepper motors and HMI (Touch Screen).

Features

1. Quick change guide tubes and blade
2. Simple operation of HMI (Touch Screen)
3. User-friendly operation
4. Quick programming

Applications

Eco Strip-999 is an automatic measuring and cutting machine. It will process round materials including of wires, cables and so on in PVC, rubber, battery cables, Teflon, fiber glass materials to name a few.

Technical Details

Operating interphase	HMI (Touch Screen)
Wire Type	Pvc, PE, Silicon and other plastic wires and multi core cables
Minimum cable size	4.0 sqmm
Maximum cable size	50.0 mm
Cable Outer Dia	4.0 – 18.0 mm
Lead Stripping Length	80 mm
Tail Stripping Length	50 mm
Length Accuracy	±0.1MM (L x 0.02%) Depends on the materials
Programme memory capacity	Upto 99 no's with all processing parameters
Noise Level	< 70 db
Power Supply	230 to 240V (50/60 Hz)
Air supply	2.0 bar max
Motor	1.6 Kw
Dimensions (L x W x H)	420 x 340 x 280 mm
Net Weight	85 kgs
