

CUTTING & STRIPPING (MULTISTRIP – 999)

Sai Paradise Machine Tools

Overview

This is a fully automatic cable cutting and stripping machine for multi cores & round cables. It handles and processes multi-core cables of external diameter 8.0 sqmm maximum. It is designed for round sheathed wires by stripping the outer sheath. The insulation materials that this multi strip-999 handles are of PVC, Silicon and many other types of materials.

Features

1. Quick change guide tubes and blades
2. Simple operation of HMI (Touch Screen)
3. User-friendly operation
4. Quick programming
5. Mid-strip facility available (optional)

Applications

Multi Strip- 999 is widely used in home appliances, automobile industry, and tele communication.

Technical Details

Operating interphase	HMI (Touch Screen)
Wire Type	Twin parallel and flat cable and multi core
Cable size	0.50 – 8.0 sqmm
Maximum cable Outer dia	8.0 mm (round), 4.0 x 8.0 mm (flat)
Lead Stripping Length	1.0 – 50.0 mm
Tail Stripping Length	1.0 – 100.0 mm
Feed System	Belt Drive
Length Accuracy	±0.1mm (L x 0.02%) Depends on the materials
Programme memory capacity	Upto 99 no's with all processing parameters
Noise Level	< 70 db
Power Supply	230 to 240V (50/60 Hz)
Air supply	4.0-6.0 bar Dried and filtered air
Motor	900 KWatts
Dimensions (L x W x H)	420 x 340 x 280 mm
Net Weight	31 kgs
