

# NYLON TYING MACHINE – (NT – 999)

## *Sai Paradise Machine Tools*

### Overview

---

The Nylon Tying Machine – (NT – 999) is used by pedal. Automatically move the cable ties to the position of the jaws. Automatically collects the waste material into waste tank. The binding force would be more accurate and stable than the electronic measure and converting system. The tightening force and residual tail are set by adjusting screws.

### Features

---

1. Without vibration feeding, the machine is smaller and the noise is lower
2. According to the object, you can use the hand – held gun or fixed gun
3. Use strip type cable tie, compressed air push the cable tie to the tool via hose
4. >Pulling the trigger or tread the pedal, automatically wrapping, perforating, pulling & tightening, cut off, collecting the waste material into waste tank
5. The machine could bind the object with different diameters without any adjustment as long as the object diameter is within the spec described
6. The whole operation takes only 1.2 sec
7. Binding force is adjustable by turning the knob
8. Could be fixed as cable tie jammed in the tool or in the hose, the machine would stop running and automatically clean the jammed cable tie, and then restart automatically

### Applications

---

It is applicable for home appliances, automobile industry, and tele communication.

## Technical Details

---

Host	AC 220V 50/60 Hz
Gun	DC 48V
Power Supply	1000w
Pneumatic Pressure	5 Kg / cm <sup>2</sup>
Cable tie Specification	2.5 x 80 mm
Min Banding Dia	Ø 2.0mm
Max banding Dia. For wire / tube	Ø 18/16 mm
Operation speed	1.1 s
Host Size & Weight (L X W X H)	710 X 470 X 230
Weight	30 Kgs
Dimensions (L x H x T mm)	278 x 240 x 149
Gun Weight	4.0 kgs
