

# SPLICE CRIMPING (SC-2000)

## *Sai Paradise Machine Tools*

### Overview

---

SC-2000 is a sophisticated jointer Crimping Machine model. This is remarkably new type of connecting machine. It joins equipment and adopts packaging connecting to replace the normal solder connecting or hand riveting.

### Features

---

1. Connecting of wire and neon light
2. Connecting of the LED resistance
3. Connecting of switch and lead
4. Connecting of head of the transformers
5. Connecting of resistance and the wire
6. Connecting of the constant temperature fuse

### Applications

---

It is used in Home appliance industries.

## Technical Details

---

Productivity Range	30 pieces per minute
Dimension of terminal	2mm / 4mm / 6mm
Power Supply	AC 220V 50Hz
Stroke of the slid block	23mm
Normal Pressure	1 ton
Counter	Digital
Operation Mode	pedal
Dimensions (L x W x H)	
Wattage	180 watts
Advantages	It cuts, form and presses at the same time
