

WHEEL TYPE BRADE UNWINDER – (WB – 10)

Sai Paradise Machine Tools

Overview

The Braider unwinding Machine – (Wheel type) is used for unwind the shielded net inside the wires. It is operated with push button. All types of wires can be combing in this model. It is easy to operate to the operator. Speed is adjustable.

Features

1. It is specially designed for combing all kinds of shielded net (winding or knitting) inside the wires by means of two wheels
2. The speed is controllable, stable and reliable in performance
3. Simple operation and easy maintenance, improve the combing efficiency of shield net
4. It is adopted with special belt brush avoid damaging the insulation of the cable with high efficiency

Applications

It is used in Wire harness industries, Automobile industries, Home appliance industries, Control panel manufacturing industries.

Technical Details

Operating Interphase	Push Button
Brush Distance	Adjustable
Braide Length	5 – 50mm
Wire Diameter	1-25mm
Air supply	Not Required
Power Supply	230 to 240V (50/60 Hz)
Motor	50 W x 2
Dimensions (L x W x H)	320 x 220 x 260 mm
Net Weight	10 Kgs
Speed	0 ~ 6000 RPM Adjustable
